The following Act of the Indian Legislature received the assent of the Governor General on the 21st April, 1939, and is hereby promulgated for general information:—

ACT No. XVII OF 1939.

An Act to amend the Indian Succession Act, 1925, as respects intestate succession among Parsis.

WHEREAS it is expedient to amend the law relating to intestate succession among Parsis;

It is hereby enacted as follows:—

Short title and commencement.

1. (*1*) This Act may be called the Indian Succession (Amendment) Act, 1939.

(*2*) It shall come into force on such date as the Central Government may, by notification in the official Gazette, appoint.

Substitution of new sections for sections 50 to 56 of Act XXXIX of 1925.

2. For sections 50 to 56 (both inclusive) of the Indian Succession Act, 1925 the following sections shall be substituted, namely:—

General principles relating to intestate succession.

"50. For the purpose of intestate succession among Parsis—

(*a*) there is no distinction between those who were actually born in the lifetime of a person deceased and those who at the date of his death were only conceived in the womb, but who have been subsequently born alive;

(*b*) a lineal descendant of an intestate who has died in the lifetime of the intestate without leaving a widow or widower or any lineal descendant or a widow of any lineal descendant shall not be taken into account in determining the manner in which the property of which the intestate has died intestate shall be divided; and

(*c*) where a widow of any relative of an intestate has married again in the lifetime of the intestate, she shall not be entitled to receive any share of the property of which the intestate has died intestate, and she shall be deemed not to be existing at the intestate s death.

Division of a male intestate's property among his widow, children and parents.

51. (*1*) Subject to the provisions of sub-section (*2*), the property of which a male Parsi dies intestate shall be divided—

(*a*) where he dies leaving a widow and children, among the widow and children, so that the share of each son and of the widow shall be double the share of each daughter, or

(*b*) where he dies leaving children but no widow, among the children, so that the share of each son shall be double the share of each daughter.

(2) Where a male Parsi dies leaving one or both parents in addition to children or a widow and children, the property of which he dies intestate shall be divided so that the father shall receive a share equal to half the share of a son and the mother shall receive a share equal to half the share of a daughter.

Division of a female intestate's property among her widower and children.

52. The property of which a female Parsi dies intestate shall be divided—

(*a*) where she dies leaving a widower and children, among the widower and children so that the widower and each child receive equal shares, or

(*b*) where she dies leaving children but no widower, among the children in equal shares.

Division of share of predeceased child of intestate leaving lineal descendants.

53. In all cases where a Parsi dies leaving any lineal descendant, if any child of such intestate has died in the lifetime of the intestate, the division of the share of the property of which the intestate has died intestate which such child would have taken if living at the intestate's death shall be in accordance with the following rules, namely:—

(*a*) If such deceased child was a son, his widow and children shall take shares in accordance with the provisions of this Chapter as if he had died immediately after the intestate's death:

Provided that where such deceased son has left a widow or a widow of a lineal descendant but no lineal descendant, the residue of his share after such distribution has been made shall be divided in accordance with the provisions of this Chapter as property of which the intestate has died intestate, and in making the division of such residue the said deceased son of the intestate shall not be taken into account.

(*b*) If such deceased child was a daughter, her share shall be divided equally among her children.

(*c*) If any child of such deceased child has also died during the lifetime of the intestate, the share which he or she would have taken if living at the intestate's death shall be divided in like manner in accordance with clause (*a*) or clause (*b*) as the case may be.

(*d*) Where a remoter lineal descendant of the intestate has died during the lifetime of the intestate, the provisions of clause (*c*) shall apply *mutatis mutandis* to the division of any share to which he or she would have been entitled if living at the intestate's death by reason of the predecease of all the intestate's lineal descendants directly between him or her and the intestate.

Division of property where intestate leaves no lineal descendant but leaves a widow or widower or a widow of any lineal descendant.

54. Where a Parsi dies without leaving any lineal descendant but leaving a widow or widower or a widow of a lineal descendant, the property of which the intestate dies intestate shall be divided in accordance with the folowing rules, namely:—

(*a*) If the intestate leaves a widow or widower but no widow of a lineal descendant, the widow or widower shall take half the said property.

(*b*) If the intestate leaves a widow or widower and also a widow of any lineal descendant, his widow or her widower shall receive one-third of the said property, and the widow of any lineal descendant shall receive another one-third, or if there is more than one such widow, the last mentioned one-third shall be divided equally among them.

(*c*) If the intestate leaves no widow or widower but one widow of a lineal descendant, she shall receive one-third of the said property or, if the intestate leaves no widow or widower but more than one widow of a lineal descendant, two-thirds of the said property shall be divided among such widows in equal shares.

(*d*) The residue after the division specified in clause (*a*), (*b*) or (*c*) has been made shall be distributed among the relatives of the intestate in the order specified in Part I of Schedule II. The next-of-kin standing first in Part I of that Schedule shall be preferred to those standing second, the second to the third, and so on in succession, provided that the property shall be so distributed that each male shall take double the share of each female standing in the same degree of propinquity.

(*e*) If there are no relatives entitled to the residue under clause (*d*), the whole of the residue shall be distributed in proportion to the shares specified among the persons entitled to receive shares under this section.

Division of property where intestate leaves neither lineal descendants nor a widow or widower nor a widow of any lineal descendants.

55. When a Parsi dies leaving neither lineal descendants nor a widow or widower nor a widow of any lineal descendant, his or her next-of-kin, in the order set forth in Part II of Schedule II, shall be entitled to succeed to the whole of the property of which he or she dies intestate. The next-of-kin standing first in Part II of that Schedule shall be preferred to those standing second, the second to the third, and so on in succession, provided that the property shall be so distributed that each male shall take double the share of each female standing in the same degree of propinquity.

Division of property where there is no relative entitled to succeed under the other provisions of this Chapter.

56. Where there is no relative entitled to succeed under the other provisions of this Chapter to the property of which a Parsi has died intestate, the said property shall be divided equally among those of the intestate's relatives who are in the nearest degree of kindred to him."

ORDER.

The 13th May 1939.

On 5th December 1938 I recorded the following:—

"I have heard Babu Sailaja Kumar Sanyal who had been informed that it was proposed to pass an order under section 56(*1*) of the Bengal Village Self-Government Act of 1919.

It appears that he disallowed certain motions proposed to be put up before a meeting of the Union Board. These motions were disallowed on the exercise of powers given to Babu Sailaja Kumar Sanyal as President under rule 18(*a*) on page 67 of the Union Board Manual, Volume I. Babu Sailaja Kumar Sanyal claims that on the merits he was right. But the fact remains that the effect of his order is that members of the Board are deprived of a means of showing their lack of confidence in him. This has resulted in a deadlock in Union Board administration which suggests that possibly Babu Sailaja Kumar Sanyal has not in fact the confidence of a majority of the Board.

The matter came before the District Board who attempted to resolve the difficulty by deciding to remove Babu Sailaja Kumar Sanyal under section 16(*1*)(*iii*) of the Act. Their resolution to this effect has been annulled under section 120 of the Bengal Local Self-Government Act and to resolve all difficulties I am considering action under section 56(*1*). It seems clear that the deadlock is such that the Union Board makes default in the performance of its duties. I have considered the opinion of the District Magistrate and the District Board both of whom favour removal. I have now heard Babu Sailaja Kumar Sanyal.

I can see no means of disposing of the deadlock other than by an order under section 56(*1*)(*a*) removing Babu Sailaja Kumar Sanyal. He has not resigned from the office of President and the resolution of the District Board has been annulled. He is still therefore President. It may be that he has lost the confidence of a majority of members of the Union Board unjustly and on account of some action he took or was supposed to have taken in connection with communal disturbances. But if so, the only proper course would have been for him to face a vote of the Union Board—and if he wished to stay on without one-third of the members of the Board to support him, to urge the merits of his case before the District Board when they would be dealing with it under section 16(*1*)(*iii*).

My conclusion is that Babu Sailaja Kumar Sanyal must face a vote of the Union Board or cease to be President. This can only be achieved by an order of removal under section 56(*1*)(*a*) and a recommendation to this effect will be forwarded to the Local Government for approval. It should be understood that there would be no objection to his standing for re-election or to his being re-elected if he can get sufficient support from members of the Union Board".

The above shows that I am of opinion that the Salap Union Board of the Pabna district persistently makes default in the performance of its duties and that Babu Sailaja Kumar Sanyal should be removed from his office as President. A proposal to pass orders to this effect has by letter No 336L.S.-G., of 24th March 1939 received the approval of the Local Government.

I now pass order under section 56(*1*) of the Bengal Village Self-Government Act, 1919 and for the reasons specified in my decision of 5th December 1938 that Babu Sailaja Kumar Sanyal should be removed from his office as President of the Salap Union Board in the district of Pabna with effect from the date of this order which will be published in accordance with section 56(*2*) of the Act referred to above.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 9th May 1939.

Final Forecast of the Wheat Crop of Bengal, 1938-39.

(*Note.*—On an average of the five years ending 1936-37, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1936-37, averaged (*a*) 42·0 and (*b*) 9·2 per cent., respectively.)

Character of the season.—Since the issue of the third forecast there was no improvement and the crop continued to suffer due to drought.

Acreage.—According to District Officers' estimates, the total area sown is 174,000 acres this year as against 160,900 acres last year.

Outturn.—The provincial outturn on the basis of District Officers' estimates works out at 72 per cent. of the normal as against 80 per cent. last year. Taking the normal yield to be 9 3/5 maunds per acre, the gross yield of the crop for the province is estimated at 43,800 tons this year as against 45,400 tons last year.

At the end of April the wholesale prices of wheat and common rice in the Calcutta mart were Rs. 3-6 and Rs. 4-8 respectively per maund or about 2 per cent. and 9 per cent. higher than the price ruling at the corresponding period last year.

M. CARBERY,

Director of Agriculture, Bengal.

J. N. ROY, *Secretary.*

Office of the Secretary, Government Commercial Institute Reorganization Committee.

11, Hastings Street, Calcutta, the 19th May 1939.

Preliminary Statement.

Genesis of the Institute.

More than half a century ago commercial education began in the province as a private enterprise. To meet a definite and growing demand private individuals, largely with mercenary motives, established book-keeping, shorthand and type-writing schools. Ill-equipped as such institutions were, they were attended by many day, and, even more, evening pupils. The situation engaged the attention of the educationists and eventually led the Provincial Government to open, on the suggestion of the Education Conference of 1883, commercial classes in some selected high schools and, as a further step on the ladder, also at the Presidency College, Calcutta. The experiment, however, proved a failure perhaps because specialisation was demanded at too early a stage of a boy's educational career. The Government of Bengal thereafter appointed a Committee in 1904 which made definite proposals in consultation with the Bengal Chamber of Commerce. The outcome of these proposals was that the lower commercial classes were ultimately abolished, and the Government Commercial Institute was brought into being in 1905 to take over on a remodelled plan the higher commercial classes of the Presidency College.

Courses of instruction.

The Institute provides for both day and evening courses of instruction, of which a brief review is given below:—

Day Course.

First, the Final Day Course to which Matriculates only are eligible for admision. It is a full two years' course, fairly comprehensive in range, comprising such obligatory subjects as Modern English (including Indexing and Précis-writing), Commercial Correspondence and Business Methods, Economics, Commercial Arithmetic and Methods of Mental Arithmetic, an Indian Vernacular (taught with special reference to Indian economic problems and indigenous business methods), Commercial Geography, Book-keeping and Accountancy, and such optional subjects as Shorthand and Typewriting. Recipients of the Day Course certificates may thereafter, if they so desire, obtain admission to B.A. or B.Com classes of the Universities. But the course, as it is, gives the necessary grounding for employment in business offices as junior assistants.

Evening Courses.

The evening courses extend over a year and lead up to special Diploma Examinations in a wide variety of individual subjects which may be taken either singly or in suitable combination. The following are the subjects of studies. Modern English, Book-keeping and Accountancy (Junior and Advanced), Mercantile Law, Shorthand (Theory and Speed), Typewriting. The evening courses are arranged specially to suit the convenience and meet the needs of those who are already in employment and, being anxious to improve their knowledge and to increase their value to their employers, require technical instruction in subjects of particular interest to them.

Registered Accountants' Course and Bankers' Course.

Evening classes also prepare students for the Government of India Examination for Registered Accountants. It is further contemplated to revive the evening classes to coach students for London and Indian Institute of Bankers Examinations which had recently to be abolished as a measure of economy.

It is obvious from the above survey that what is attempted at the Institute is, if the Registered Accountants' Course is excepted, primarily to provide youths with some theoretical knowledge which at least would assist them in obtaining situations as junior clerks, etc., in commercial offices.

Proposed Reorganization.

It has now been decided by Government that the Institute should be reorganized and developed into a first grade Government Commercial Institute or College with a view to providing facilities for commercial training of a higher order. Accordingly a Committee has been appointed to make the necessary investigation and to report to Government on the type of the college required, and other relevant matters.

Questionnaire.

The following questionnaire is now issued by the Committee. Any one who feels interested is invited to send, for the information and guidance of the Committee, by the end of July, replies to all or as many of the questions as he may choose to answer. All communications in the matter should be made to the Secretary, Government Commercial Institute Reorganization Committee, at the address stated above :—

Questionnaire.	
(1) Assuming that it is desirable to extend the work of the Government Commercial Institute, do you consider that the extension of its activities should be to produce a greater number of students who have been given the same training as is at present provided? (2) If not, what is the type of College required?	
(3) Should it be affiliated to Universities? That is to say, do you consider that there should be added to the present training an academic training such as would be obtained by affiliation to the Universities for the B.Com. degree?	
(4) Should the College be self-contained and independent, conducting its own examinations and granting its own diplomas? If so, do you consider that there should be provided a higher training than is given at present which as well as being academic should also entail close contact with actual commercial undertakings?	
(5) What are the subjects and courses of studies for which instruction should be provided? Do you think there should in addition be short refresher courses in individual subjects?	
(6) Can you suggest any particular type of training which will make the students more acceptable to Government? Railways, Public Utility Companies, etc., when trained?	
(7) Do you consider that the Institute should provide facilities for evening training as well as day training for any new course which may be instituted?	

(8) Do you consider that any scheme such as is in operation in some parts of England whereby employees are allowed a number of days per week entirely free from their work in order to enable them to attend commercial or industrial classes, is possible in India? If not, do you consider it possible to develop any other scheme of part-time theoretical training and part-time practical work?	
(9) Which in your opinion is preferable, to provide practical training along with the theoretical training or to arrange for it after the theoretical training is completed?	
(10) Do you consider that there is a reasonable probability of commercial firms co-operating to provide facilities for practical training? If so, please suggest any plan which will ensure this.	
(11) Do you consider it essential to have on the staff of the Institute teachers who are actually engaged in commercial undertakings (such teachers would obviously be part-time employees)?	
(12) Do you consider that the Institution should be a normal Government Institution where the Governing Body is largely advisory to Government or do you consider that Government should create a Governing Body with considerable autonomous powers?	
(13) Do you consider that the Governing Body in this Institution should include a large representation of practical businessmen?	
(14) Where do you consider that the Institute should be most conveniently located?	
(15) Have you any suggestions to make not covered by the previous questions which in your opinion will enable the Institute to be more useful?
